Subject: Hatco meeting
Date: Tuesday, January 26, 2016 9:18:04 AM

Jim,

As a follow up to our discussion yesterday, Weston is available for a meeting next week on February 3, preferably in the afternoon but we can make arrangements to meet in the morning if preferred. Alternate dates would be Tuesday February 9 at any time or Wednesday February 10 in the afternoon. Please let me know your preference and we will make final arrangements.

Also, as we discussed, Weston will collect two additional post-excavation samples from the Northeast Impoundment soils for PCB analysis. The samples will be collected from the area of the suspect waste classification sample previously collected by Viasant. The samples will be spaced approximately 5 feet apart and collected from soil at the 0- to 6-inch depth interval below the cap that has already been constructed in this area. We will provide you with the results promptly after receipt.

I will provide the additional information that you requested yesterday separately. Please let me know if you have any questions.

Thanks,

Jason

Jason Schindler
